COMMERCIAL FLOOR CARE EQUIPMENT

WET/DRY VACUUM Models PF54

OPERATING INSTRUCTIONS

Equipment must be operated, serviced and maintained in accordance with the manufacturer's instructions.

Save These Instructions

SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE

*When using a wet/dry vacuum, basic precautions should be followed.

*Read all instructions before using your vacuum.

IMPORTANT SAFETY ADVICE

When using electrical equipment basic safety precautions should be followed including the following:

You must have training in the operation of this machine before using it. Read all instructions carefully before use.

- Keep children and unauthorized persons away from the machine when in use.
- Do not leave the machine plugged in when not in use.
- Switch the machine off before removing the plug from the outlet.
- When unplugging, pull the plug, not the cord.
- The machine must be unplugged prior to cleaning or servicing the machine .
- Keep the power cord clear of moving parts.
- Do not run the machine over the power cord.
- Do not operate the machine with a damaged power cord or plug, or if the machine malfunctions or is damaged in any way.
- Do not use where hazardous dust is present.
- Do not use in an explosive atmosphere.
- Do not use where flammable liquids or gasses are present.
- Do not use or pick up flammable chemicals or liquids with this machine.
- Take care when using the machine near the top of stairs to avoid overbalancing.
- Maintenance and repair must be done by authorized personnel only.
- Wear suitable footwear to avoid slipping.
- Do not operate this machine in bare feet or with open-toed shoes or sandals.
- Do not smoke when using the machine.
- CAUTION:-This machine is for indoor use only and should not be used or stored outdoors or in wet conditions.

DRY OPERATION OF VACUUM

The wet/dry vacuums are equipped with bypass motors. Install the cloth filter, place the motor head on the canister and snap down the hold-down clamps.

WET OPERATION OF VACUUM

The wet/dry vacuums are equipped with a bypass motor so that the working vacuum is separated from the cooling air flow. To pick up water, the dry filters must be removed. The safety float assembly, located in the vacuum head, stops the vacuum motor when water in the tank exceeds the safety level.

WAND AND ATTACHMENT INSTRUCTIONS

To assemble the two piece wand:

1. Match the alignment ridges of the upper and lower wand sections.
2. Push the upper wand into the lower wand.

To assemble tools:

1. Slide the swivel cuff of the tool onto the tapered lower wand.
2. Turn swivel cuff 1/4 turn to tighten.

DRAINING

When the tank is full.

1. Release drain hose from hose clamp.
2. Remove plug from hose end to start draining process.
3. When draining is complete, replace hose plug and snap hose back into clips on side of tank.

NOTE: When the water level in the tank exceeds the safety level, the safety device will automatically block the inlet, and the motor turning sound will be changed, but power will remain ON. The power must be turned OFF before emptying the tank.

REMOVE THE PAPER FILTER

The paper filter must be removed for wet recovery.
Push the metal ring counterclockwise to release the filter.
Remove the paper filter.

HOSE ATTACHMENT INSTRUCTIONS

The hose and swivel connector are pre-assembled at the factory.
To attach the swivel connector to the intake fitting of the canister:

1. Push the grooved cuff straight into the intake fitting.
2. To remove, press the release button on top of the intake fitting while pulling the grooved cuff out.

MAINTENANCE AND SERVICING

1. To dismantle, unclip both latches and remove top housing and filter with frame.
2. Wash the filter with water and allow it to dry.
3. After washing, remove excess water with a gentle squeegee.
4. Replace the filter and top housing and fasten the latches.

NOTE: This cleaner is designed with a powerful suction. Do not be alarmed if the motor noise increases when performing tougher cleaning work.

Model PF54 drain hose.

Installing Instructions - FM100H

FRONT MOUNT SQUEEGEE INSTRUCTIONS

1. Remove vacuum head and filters from the vacuum.
2. Install axle mounting plate to bottom of unit. *See fig 1*
3. Attach handle bracket to squeegee bracket.
4. Attach squeegee bracket to the axle bracket. *See fig 2*
5. Attach handle to handle bracket. *See fig 3*
6. Attach handle holder to machine handle. *See fig 4*
7. Attach squeegee to squeegee bracket. *See fig 5*
8. Adjust compensating wheel as necessary.

TROUBLE SHOOTING GUIDE

Loss of Suction

CAUSE:

- 1) Tank full.
- 2) Dry filter assembly clogged.
- 3) Clogged hose or wand.
- 4) Tank rim is dented.
- 5) Loose or broken fan.
- 6) Motor not working.
- 7) Float not functioning.
- 8) Seal worn.

SOLUTION:

- 1) Empty Tank
- 2) Clean cloth filter.
- 3) Remove obstruction.
- 4) Replace tank.
- 5) Contact manufacturer or service center.
- 6) Contact manufacturer or service center.
- 7) Check to see if float moves freely or tank is full.
- 8) Replace seal.

Motor is not running

CAUSE:

- 1) Broken switch.
- 2) Defective power cord.
- 3) Defective motor.

SOLUTION:

- 1) Contact manufacturer or service center.
- 2) Contact manufacturer or service center.
- 3) Contact manufacturer or service center.

Dust blowing from unit when running

CAUSE:

- 1) Cloth filter dirty.
- 2) Cloth filter is torn.
- 3) Cloth filter is not installed.

SOLUTION:

- 1) Clean cloth filter.
- 2) Replace filter.
- 3) Install cloth filter, when vacuuming very fine dust,

Water blowing from unit when running

CAUSE:

- 1) Tank is full of liquid.
- 2) Sudsy or foamy liquid is being picked up.

SOLUTION:

- 1) Empty tank.
- 2) Add defoamer to tank.

The Powr-Flite Limited Warranty

The manufacturer warrants to the original purchaser that products manufactured are free from defects, provided such goods are installed, operated and maintained in accordance with written manuals or other instructions for a period of 1 year from date of purchase on workmanship, motor, and parts. In case you, as our customer, meet any trouble with your machine, contact a Powr-Flite representative, who will be happy to be of service to you and will take care of any warranty issues.
