

Powr-Flite®

Commercial Sanders

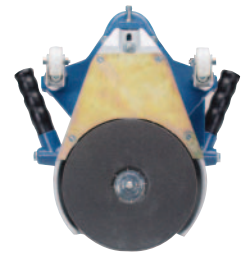

The Professional Choice for
Hardwood and Floor Care

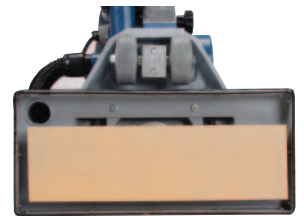

Five Different Models Creating

Sanding wooden floors can be a scary proposition, even for the most seasoned professional. Not so with Powr-Flite's user-friendly sanders. These sanders feature precision cutting for professional results even if you've never sanded before! Works great on soft and hard wood floors, including parquet.

- A winning combination of solid heavy duty construction, ease of operation and professional precision.
- Dynamically balanced designs for optimum sanding results.
- Unmatched dust pick up.
- Precision cutting with aggressive action for increased productivity
- Compact and tough construction guarantees years of trouble-free operation.
- The best possible return on your investment due to customer satisfaction and low maintenance.

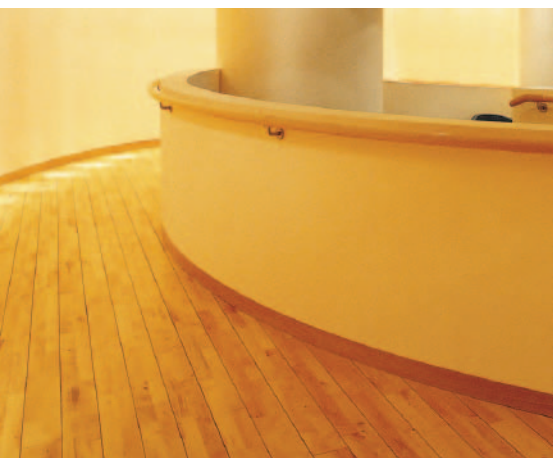

7" disc edger

15 1/4" orbital sander

8" drum sander

8" Drum Sander Options

Spring Drum

This drum uses two spring loaded drum plates to hold sanding paper in place. This drum requires no tools to change sanding paper.

Expandable Drum

This type of drum uses an 8" sleeve/belt type paper which you slide onto the drum. When the drum spins, the rubber expands and firmly holds the sanding belt

Bar Clamp Drum

Easy access to the drum allows quick change of the sanding paper which is held on the drum by a metal bar and two screws.

Get the Right Sander for Any Job.

Superior results guaranteed!

Achieve professional results, even with no experience.

8" Drum Sander

- 3 models of drum styles; spring loaded same as Essex Silver Line®, bar clamp same as Clark® or the easiest to use expandable drum
- Operation is easy with the drum lowering lever – helps prevent floor gouging
- Superior dust pick up with sealed oversize vacuum fan (6,800 RPM)
- Increased productivity with forward and reverse operation
- Dynamically balanced drum that guarantees better sanding results.
- Drum support will not bend– lifetime warranty (SD800E and SD800BC models)

Order	Description
SD800	8" spring drum sander
SD800E	8" expandable drum sander
SD800BC	8" bar clamp drum sander

Easy to use!

Balanced design turns the first time user into a professional.

Orbital Sander

- Rates highest level of productivity with twice the plate speed (2,000 RPM) of the competition
- Labor saving built-in vacuum system keeps dust to a minimum
- Fluorescent light highlights work area for detail precision
- Sand faster and increase productivity with high pressure of 1.6 pounds of weight per square inch
- Dedicated motors to plate and vacuum for maximum sanding and vacuum ability

Order	Description
SD150	orbital finishing sander

Combines the best features!

of a standard edger with the convenience a free arm edger!

7" Disc Edger

- 7 1/2 inch working arm allows you to sand hard to reach areas
- Fast, very aggressive and labor-saving with powerful 2.4 HP motor
- Fast moving parts are electronically balanced for vibration free operation
- Unparalleled dust pick up with sealed oversize vacuum fan (12,000 RPM)
- Great for walls or toe kicks, stairs, corners, under radiators and other hard to reach areas.
- Easy to use–no added pressure necessary, the edger does all the work
