

POWR-FLITE®

Commercial HEPA Upright

True HEPA Filtration in a Commercial Upright!

- Washable, sealed HEPA filtration
- Brush view window
- Headlight
- On-board cleaning accessories
- Wide 15" cleaning path
- Quiet, long life commercial motor, 73 dB
- UL listed for commercial use

Improve the indoor air quality while vacuuming with the versatile Powr-Flite PF82HF or PF83 containing sealed HEPA filtration systems. These vacuums are UL listed for commercial use and include a washable HEPA filter that captures dust and allergen particles down to .3 microns in size. The oversized diameter hose resists clogging and stretches to 10 feet. Additional features include a brushroll window to alert the user if the belt needs replacing, on-board cleaning accessories, a one piece handle, a quiet commercial grade motor, headlight and a 15" cleaning width. Model PF82HF features a bag lid safety latch to prevent operation of the unit without a bag in place. Model PF83 has one of the largest, most convenient dirt cups in the industry. The perfect combination of features, power and filtration, the PF82HF and PF83 are excellent choices for hospitals, nursing homes and busy offices.
