### Maximum airflow in a streamlined housing

- Space saver stackable design
- Unique 4-point motor mounting system reduces noise and vibration
- Up to 3 operating positions, including kickstand for more drying versatility
- Rotationally molded high density polyethylene housing for rugged durability
- Built-in thermal overload protection safeguards components in high heat conditions

Stackable for transport and storage.

**POWERFUL AND STACKABLE**

Engineered for high performance and efficiency, Powr-Dryers feature maximum airflow in a streamlined housing designed to reduce performance loss, along with 3 speed settings for lower amp draw. The stackable design provides easy transportation and storage and also meets OSHA standards for maximum weight and size. Our full featured Powr-Dryers have the drying power for everything from delicate drapes to flooded sheetrock.

Easy vertical operation.

PD500DX model includes telescoping handle.

Powr-Flite Safety Dryer - Model PD500DX-YS with high visibility yellow housing and permanently attached caution banner.
