Two 3-stage vacuum motors, a strong 400 p.s.i. pump and the Perfect Heat® system provide powerful cleaning.

- 13 gallon capacity
- Dual 3-stage motors
- 400 p.s.i.
- 200” waterlift
- 12” wheels
- Clam-shell design
- Wheeled handle for easy loading

Produces higher more sustained heat than competitive extractors.
The BlackMax combines the power of two 3-stage vacuum motors, a robust 400 psi pump, electric heat and the Perfect Heat® system to give you the most powerful portable extractor on the market.

**MORE RECOVERY**
The two 3-stage vacuum motors deliver 220” of waterlift and 101 CFM of extraction. These tremendous vacuums deliver nearly 50% more waterlift than two 2-stage motors!

**MORE POWER - MORE HEAT**
Not only does the BlackMax have an electric heater, it also uses our patented Perfect Heat® System. This system continuously provides the hottest solution temperatures available. No other system can maintain water temperatures as high as Perfect Heat®!

**Perfect Heat™... here’s how it works**

BlackMax extractors use two high-powered vacuum motors. These motors produce enormous amounts of heat. Perfect Heat™ technology captures this heat and uses it to heat the water used to clean the carpets. This unique process requires no additional electric power and is simple and dependable. This process is so unique and so effective that it is patented. No other system can maintain water temperatures as high as Perfect Heat™!

1. Water is delivered from the tank to the pump.
2. The Perfect Heat™ coils preheat the water.
3. The electric heater superheats the already pre-heated water.
4. A steady supply of hot water is sent to the wand.
