Convenient tip & pour feature

3 stage filtration

Powr-Flite's PF55HM HEPA Wet/Dry Vacuum is perfect for wet or dry debris recovery applications where critical filtration is a must. The PF55HM features 3-stage filtration, utilizing a paper filter recovery bag, a hybrid paper/cloth pre-filter and an individually-certified HEPA filter. The individually-certified HEPA filter is 99.97% efficient in filtering particles down to .3 microns, ensuring the exhaust air is clean and free of hazardous airborne pollutants. The optional Wet Adapter must be added to protect the HEPA filter during wet recovery. The 18 gauge stainless steel tank is corrosion resistant and features a tip and pour design for easy debris disposal. The PF55HM includes a complete accessory tool kit.

PRODUCT SPECIFICATIONS	
ITEM#	PF55HM + PF55HMW (WET USE ADAPTER)
DESCRIPTION	Commercial HEPA wet/dry vacuum
TANK	20 gallons, 18 gauge non-corrosive stainless steel
DRY DEBRIS CAPACITY	.77 cubic feet
VACUUM MOTOR	1.6 hp, 2-stage commercial duty
CFM	114
STATIC WATERLIFT	100"
FILTER RATING	Certified HEPA filters down to .3 microns at 99.97% efficiency
WET USE ADAPTER	Item # PFHMW (must be installed for wet debris recovery)
NOISE LEVEL	77 dB at 8 ft.
WHEELS, REAR	2 - 10" non-marking
CASTERS, FRONT	2 - 3.5" swivel
POWER CORD	25'
WEIGHT	60 lbs.
WARRANTY	5 year - tank, 1 year motor, parts and workmanship
