## **Mister/Extractor/Detailer**

Item# PFMS

### **Disinfectant Mister and Extractor/Detail Cleaner**

- This mister is designed for use with all water-based disinfectants from the EPA "List N".
- Dual brass nozzles - atomizer nozzle and a wide area jet fan nozzle
- Whisper quiet when in mist only mode
- 3.5-gallon solution
- On-board storage for hoses, wands, and nozzles
- 35' Misting Hose
- 18" Misting Wand with atomizer nozzle pre-installed
- 25' power cord
- Built-in dolly with wheels features collapsible handle for easy use and storage

**DISINFECT AND CLEAN**

Quickly and easily disinfect all of your high touch areas with this Mister/Extractor dual purpose machine. The mister features over a 120' reach providing plenty of room to work and the 3.5 gallon capacity allows you to mist between 7,500 - 10,000\* square feet of space. Easily extract/clean smaller spaces with the detail tool and optional floor tool that is perfect for touchups and cleaning in tight locations where bigger machines just can't fit. It's compact design includes a telescoping handle and 5" transport wheels that makes it simple to transport and store. \*Variance dependent on user application method.

**Easy Transport**

ThePowr-Flite Nebula comes standard with a telescoping handle for easy transport

**10' Rigid Hose with Outsider Solution Line**

10' hose length provides the flexibility needed to reach almost anywhere you need to clean

**Superior reach**

35 foot misting hose and 25 foot power cord allows for 120 foot of complete disinfecting coverage.

**Misting Wand**

Durable 18" metal misting wand provides easy application of disinfectant. Two included nozzle tips meet application needs.

**Hand Tool**

Great for both spot/upholstery and detail cleaning of fabrics, upholstery and carpeting.
