**1200 PSI CLEANING FOR
HARD FLOORS, CARPETS,
CONCRETE AND MORE!**

RIPTIDE
HIGH PRESSURE MULTI-SURFACE CLEANER

Item#
PF1200RT

Riptide Multi-Surface Cleaner

Item# PF1200RT

Versatile, high pressure cleaner for your toughest restorative jobs!

- One machine does it all:
 - Tile & Grout Cleaning
 - Carpet Extraction
 - Concrete Restoration
 - Pressure Washing
- Adjustable 500-1200 PSI pump
- Decreased downtime with DirectConnect™ to water source
- Durable, roto-molded body for lasting machine life

The Riptide ships complete with a 12" Hydro Wand, 25' solution hose and two 25' water supply hoses.

Using the included Hydro Wand, concrete, tile and grout can be deep cleaned; leaving floors looking fresh and new.

Eliminate the frequent refills and lost productivity of a solution tank by connecting directly to your water source.

Adjustable PSI, the ability to clean an array of surfaces and pressure wash capability make the Riptide very versatile.

VIPER VENOM:

- Viper Venom (Item# VV4) for routine cleaning
- Viper Renew (Item# VR4) for restorative cleaning

The durable, roto-molded tank includes convenient on-board storage for hoses, wands and power cords.

CLEANING MADE EASY!

The benefits of the Riptide don't end with its versatility. Operators can use the auto dump feature, or the 10 gallon recovery tank, to empty the solution recovered from the powerful 3-stage vac motor.

Features such as large stair-climbing wheels make transportation easy, plus Powr-Flite's exclusive handle-mounted transport wheels helps loading and unloading. A dual circuit indicator light and pig tail cords make it easier to get set up and start cleaning.

OPTIONAL ACCESSORIES:

- Wonder Wand™ (Item# WW1000)

- 7" Spinner Hand Tool (Item# HP7)

- Pressure Washer Gun (Item# X1470)

- Wet/Dry Vac Tool (Item# WD30A)

- Wet/Dry Vac Wand (Item# WD29 - 2 required)

PRODUCT SPECIFICATIONS	
MODEL	PF1200RT
POWER CORD	25' 12 gauge, 3-wire
WATER SUPPLY HOSE X2	25"
RECOVERY TANK CAPACITY	10 gallons
VACUUM INTAKE HOSE	25' (8 m) x 1.5" (38 mm)
PSI	500 - 1200
WATER LIFT	135"
MOTOR	Single 3-stage
CFM	92
FRONT WHEEL SIZE	4"
REAR WHEEL SIZE	12"
TANK CONSTRUCTION	Polyethylene
OVERCHARGE PROTECTION	Electronic float / auto ON-OFF
DISCHARGE PUMP	Self-priming impeller pump
DISCHARGE RATE	5 GPM
FILTER SYSTEM	50 mesh S/S filter recovery tank 50 mesh S/S filter before pump
WEIGHT	185 lbs
DIMENSIONS	41" H x 29" L x 22" W
WARRANTY	5 years housing, 1 year motor, parts and workmanship, limited warranty on pump heads
MODEL	HYDRO WAND HP-12
HEAD DIAMETER	12"
SPRAY JETS	2 x / 90 degree
RATED PSI	2600
MAX FLOW RATE	2.2 GPM
WARRANTY	1 year
